The Concept of ourGOVERNANCE

The concept of the **ourGOVERNANCE** was proposed after discussions around the critical issues that face the Governing Body of Non-profit Organisations. Development work on **ourGOVERNANCE** began back in May 2001, as there appeared to be much work done in the area of For-Profit Governing Bodies, but minimal if nothing in the way of Nonprofit Governing Bodies.

0% COMPLETE Last activity on 20/10/2020 2:21 PM

The General consensus is that Non-profit Governing Bodies could have as high as 80% of their governing body members who may never have sat on a Governing Body before. The

feeling is that these governing body members may not be aware of how onerous their appointment is, with respect to their fiduciary and statutory responsibility, corporate governance and due diligence issues.

OurGOVERNANCE was developed in the interest of making available to such Governing Bodies and their Chairpersons a tool through which they could individually review their understanding of their responsibility of being a Governing Body Member on such a Board, and embark on personal Governing Body Member Development. The core focus is to empower each Governing Body member with the knowledge to improve their application of this learning/understanding and in so doing improve the effective and efficient decision making that such a Board member has to make, plus to protect the investments made in the organisation by the Incorporators and Funders of such company.

MODULE ONE

SECTION 1.0 - OBJECTIVE AND SCOPE

The objective of this study guide is to bring sufficient understanding, through a concise set of practical guidelines, information and references to regulations, codes of good practice and best practice, to enable governing body members of Non-Profit Organisations to so order and conduct their organisation, its affairs and undertakings, that they will be able to fulfill the obligations and expectations incumbent upon them.

The scope of this study guide includes a summary of principal duties and responsibilities that governing body members must perform, including **the responsibility to become fully informed** of their functions through other sources. This study guide is not exhaustive and is also not a job description. If studied carefully, the contents will create sufficient awareness of the complexity and extent of governing body members' duties to allow them to make responsible and informed decisions, even the decision to insist on further information before giving their consent on any matter.
